

# Activity Pricing and Evaluation

Activities can be scheduled by rotation to suit larger groups. The following guide can be used for your planning. Pricing **includes GST** and is based on approximate wage costs of award wages without penalties, set up/ pack up time between rotations, breaks, equipment repairs and maintenance amortisation.

**All ride destinations are subject to an assessment of rider's ability on the first day. Blue Light qualified bike education staff will make that final assessment to keep the ride within the risk management plan.**

We strongly recommend before finalising activities that you contact the Camp Staff so the activity meets your objectives and at times areas of the school curriculum. New activities may also be introduced during 2019 or other leadership games may be structured to meet your needs.

See our website for a description of each activity at <http://www.bluelightcamp.com.au/list-all-activities/> or <http://www.bluelightcamp.com.au/bike-education-program/>
